

Building Science Summer Retreat BPI Certification Course

July 17th – 22nd, 2017

Brooks, Maine

Building Science Summer Retreat. Come earn your BPI certification on the Maine Coast this summer. Accommodations available. Refresh your certification with the latest on Pressure Diagnostics and Healthy Homes IAQ while earning either your Building Analyst or Envelope Professional Certification or both.

The Retreat will take place at Build Green Maine's walk-in test center in Brooks, Maine. It will run from 8:30AM to 5PM each day, and includes:

- Course materials, updated for 2016 ASHRAE BPI Standards
- 3 days of classroom instruction
- 2 days of hands-on instruction
- Optional BPI Tests

In addition to hands-on blower door testing and combustion safety testing, students are instructed in zone pressure diagnostics, interstitial and duct leakage pressure pan testing, bath fan measurement, gas leakage detection and carbon monoxide monitoring. Students are shown how to calculate heat loss and estimate air leakage across zonal boundaries and introduced to energy modeling. Equipment used: Minneapolis Blower Door and Duct Blaster, Bachrach combustion analyzer and gas leakage detector and FLIR I/R camera.

Build Green Maine is Maine's oldest and most thorough building science teaching and testing company. Training professionals is what we do, it's the only thing we do. That's why over 500 professionals have trained with us since 2007.

Course Fee including BPI BA Certification \$1,495
